Designation Inspr.-Genl.of Police,

Station Madras-4.

Received Registered

To

The Secretary to the
Government of Madras,
Home Department.

Enclosures: R.C.No. 612/W/52 dated 23rd June 1952.

Sir,

W 112963 25/6

SECRETARY TO GOVERNMENT
2 JUN 1952
HOME DEPARTMENT

Sub:- South Kanara District - Mangalore Circle - Reallocation of villages between stations and shifting of Mangalore South station to Kankanady village - Proposal - Sanction - Requested.

---O---

I request the Government to approve of the following proposals:-

(i) to transfer the entire village of Kankanady from the limits of the Mangalore East and North Stations to that of the Mangalore South Station;

(ii) to shift the Mangalore South Station from its present location within the Mangalore North Station limits to Kankanady village;

(iii) to shift the Mangalore East station from its present building to the building vacated by the Mangalore South Station and

(iv) to transfer 1 Head-Constable and 2 Police Constables from the Mangalore East Station to the Mangalore South Station.

2. Mangalore Circle consists of three stations, Mangalore North and South (purely town stations) and Mangalore East with an out-post at Ullal. At present the village Kankanady is divided and included within the limits of all the three stations of the circle. For the sake of convenience and efficient policing of the area it is considered necessary to include the entire village of Kankanady within the limits of Mangalore South Station.

3. All these three Police stations are located in Government buildings next door to each other in the heart of the Town, Mangalore South Station being actually outside its jurisdiction. With the growth of the Town, the occurrence of Crime is on the increase and it is necessary to ensure a more effective policing of the town. One of the urgent measures which would help to achieve this object is the shifting of Mangalore South Station to a more central place within its jurisdiction. The location of the Mangalore South Station in that part of the town known as Kankanady will ensure that the station lies within its own jurisdiction. If this is done, town beats can be organised more conveniently and effectively and the public will have easier access to the station which serves their area. A private building to house the station can be secured on rent.

4. The station building of Mangalore East is at present in need of extensive special repairs. A copy of the report dated 11-2-52 of the Executive Engineer, Public Works Department, who inspected the building, is enclosed for information. It will be seen that the site too is insanitary. I, therefore, recommend that the Mangalore East Station may be shifted from the building now occupied by it to the one available consequent on the shifting of the Mangalore South Station to Kankanady. The Government building at present occupied by the Mangalore East station may be handed-

2

over to the Revenue or the Public Works Department as the case may be to be made available to the Government for any other purpose after repairs. Mangalore East Station serves the rural areas both to the north and south of the Mangalore Municipality and its location in the town is not inconvenient.

5. In G.O.Ms.No.2789, Home, dated 13-7-51, 6 villages which were previously attached to the Mangalore East station were transferred to the limits of Mangalore North and South stations. With the transfer of the part of Kankanady village now included in the limits of the Mangalore East Station to that of Mangalore South Station, the Mangalore East station will become light and I consider that out of the total staff of 4 Head Constables and 25 Police Constables of the station a staff of 1 Head Constable and 2 Police Constables can be reduced in the Mangalore East Station and transferred to Mangalore South Station which requires additional staff. The work in the Mangalore South Station is heavy and it is necessary to strengthen it. The present strength of the Mangalore South Station is 4 Head Constables and 25 Police Constables and with the addition of 1 Head Constable and 2 Police Constables as proposed above, the Station will have 5 Head Constables and 27 Police Constables.

6. The proposals do not involve any change in the magisterial jurisdiction.

7. The proposals do not also involve any extra expenditure to Government except on account of rent at Rs.50/- per mensem for the Mangalore South Station building at Kankanady. Suitable accommodation can be secured at Kankanady for locating the Station.

8. The necessary draft notification in duplicate is enclosed for the approval of the Government.

9. The District Magistrate, South Kanara, has recommended the proposals -(copy of his remarks enclosed).

10. The expenditure will be met from the appropriation under the relevant sub-heads under "29-c-Police-District Executive Force-A-District Police-I-Ordinary Areas - Voted."

3

Copy of Letter No.380-M dated 11-2-52 from the Executive Engineer, South Kanara Division, Mangalore (P.W.D.) to the Dist.Supdt.of Police, South Kanara, Mangalore.

Sub:- Buildings - Station House for the Mangalore East Police Station- Inspected.

I forward herewith my inspection notes on the above building.

2. There is a vertical crack in the partition wall between the female lock-up room and the record room at its junction with the outer wall. The partition wall does not carry any load. The crack can be racked out and grounted with cement mortar and made safe.

3. The door frames in the female lock up are decayed at the bottom and due to the heavy weight of the shutter it has sunk down. So great force has to be used to close the shutter. Due to this the filling at the introdos of the arch has cracked. On account of the force used in closing the shutters the wall seems to shake. The door frames have to be renewed. While doing so some more hold fasts to fix the frames to the wall may be introduced. The door frames when renewed may be made a little thicker. The rafters are in good condition.

4. The whole building requires urgent special repairs. The reepers require renewal in some places. The whole thatty ceiling has decayed. The roof also requires relaying with the same tiles replacing all broken ones. Wood work requires repainting.

5. Apart from this I have to report that the sanitary condition of the site is not at all satisfactory. To the East of the building there is slum like habitation and I am told the windows are generally kept closed. On the Southern side of the building runs an open gutter, carrying the sullage of the town. This makes the atmosphere of the locality unwholesome. From the point of view it will be better to shift the station to a healthier locality. Government have spent some amount a couple of years back in electrifying the building. Hence it is for your consideration if the station can be shifted.

HOME DEPARTMENT

POLICE - Jurisdiction - South Kanara District - Mangalore Circle - Mangalore East and North Stations - Transfer of Kankanady village to Mangalore South station - Shifting of Mangalore South Station to Kakanady - Sanction.

Ref: From the I.G. of Police, R.C. 612 W/52 dated 23-6-1952.

The I.G. of Police has submitted proposals for the re-allocation of villages and shifting of police stations and police staff in Mangalore circle. The main features of his proposals are:--

(i) to transfer the entire village of Kankanady from the limits of the Mangalore East and North Stations to that of the Mangalore South Station;

(ii) to shift the Mangalore South Station from its present location within the Mangalore North Station limits to Kankanady village;

(iii) to shift the Mangalore East station from its present building to the building vacated by the Mangalore South Station, and

(iv) to transfer 1 Head Constable and 2 Police Constables from the Mangalore East Station to the Mangalore South Station.

Proposal (i) above: Mangalore Circle comprises three stations namely, Mangalore North, Mangalore South and Mangalore East with an outpost at Ullal. The village Kankanady now lies within the jurisdiction of all the three stations. As it causes practical inconveniances the I.G. of Police has proposed the inclusion of the entire village of Kankanady within the limits of Mangalore South station as it will ensure efficient policing of the area. The proposal of the I.G. may be accepted.

Proposal (ii) above: All the three Police Stations of the Mangalore Circle are now located side by side in the heart of the town with the Mangalore South Station lying outside its jurisdiction. The I.G. of Police is of opinion that the incidence of crime is on the increase with the growth of the town and he considers that shifting of Mangalore South Station to Kankanady, a more central place within its jurisdiction will help to check the increasing volume of crime and to facilitate convenient and effective organisation

P.T.O.

organisation of town beats. The public will have easier access to the station is another advantage accruing from the proposed arrangement. The I.G. suggests that a rented building can be secured there to house the station at a rent of Rs. 50/- p.m. The proposal of the I.G. may be accepted,

para 3 p 1 f

para 7 p 2 f. Dn. B

Proposal (iii) in para 1 at p. 1 ante: The I.G. of Police has stated that the Govt. building now occupied by Mangalore East Station is in need of urgent and extensive repairs and that insanitary conditions are prevailing near the building. The Executive Engineer, South Kanara division has inspected the place and has recommended the shifting of the station because of the unwholesome atmosphere that surrounds it, apart from the structural x defects of the buildings. The I.G. has therefore proposed that the Mangalore East Station may be shifted from the Government building now occupied by it to the Government building to be vacated by the Mangalore South Station, which is to be shifted to Kankanady. The I.G. has further stated that the Mangalore East Station building may be handed over to the Rev. or P.W.D. as the case may be, to be made available to Government after repairs.

para 4 p 1 f.

His inspection report at p3 f.

x as explained in para 2, 3 and 4 in p3 f.

p2 f 6 Dn. C.

Proposal(iv) in para 1 at p. 1 ante: Consequent on the reallocation the Mangalore East Station becomes light while the South Station becomes heavy requiring additional staff to cope with the increased work. The I.G. has proposed that a staff of 1 H.C. and 2 P.Cs. can be reduced in the Mangalore East Station and transferred to South Station which, then, will have a total staff of 5 H.Cs. and 27 P.Cs. This may also be agreed to.

para 5 p 2 f.

Dn. D

The proposals of the I.G., which has been recommended by the Collector of South Kanara district/do not involve any change in Magisterial jurisdiction.

para 6 p 2 f. Dn E.

The proposals involve an extra expenditure of Rs. 50/- p.m. or Rs. 600/- p.a. towards the rent for the building proposed to be taken for the Mangalore South Station Buildings at Kankanady.
